(b) List the total number of certified registered nurse practitioners counted as a primary care provider.

**Response:** The specific number of registered nurse practitioners counted as primary care is not included in the geo-access data.

(c) List the total percentage of primary care providers who are certified registered nurse practitioners.

**Response:** Our systems are unable to determine the percentage of registered nurse practitioners that practice as primary care. Within the systems, nurse practitioners are a broad provider type and we cannot drill down to determine in which specialty field they practice.

(d) List the total number of essential community providers in the carrier's network.

ALIC - 784 ECP providers are participating in our PPO/EPO network

(e) List the total percentage of essential community providers available in the health benefit plan's service area that are participating providers.

ALIC – 34.32%

(2) Appointment Waiting Time Standards.

(a) For each appointment type listed in the Chart in Section F, list the percentage of enrollees for which the carrier met the appointment wait time standards, in the following format:

Appointment Waiting time Standard Results	ALIC
Urgent care-within 72 hours	100%
Urgent care behavioral health/substance use disorder-within 72 hours	80%
Routine primary care- within 15 calendar days	100%
Preventive Visit/Well Visit - within 30 calendar days	100%
Non-urgent specialty care within 30 calendar days (OB/GYN – high-volume)	92%
Non-urgent specialty care within 30 calendar days (Oncologists – high-impact)	100%
Non-urgent behavioral health/substance use disorder services- within 10 calendar days	89%

(b) List the total percentage of telehealth appointments counted as part of the appointment waiting time standard results.

**Response:** Telehealth appointments are not factored into appointment waiting time standards results.

(3) Provider-to-Enrollee Ratio Standards.

A carrier must list whether the percentage of provider-to-enrollee ratios meet the provider-to-enrollee ratio standards listed in Section G for each of the following categories:

- (i) 1,200 enrollees for primary care;
- (ii) 2,000 enrollees for pediatric care;
- (iii) 2,000 enrollees for obstetrical/gynecological care;
- (iv) 2,000 enrollees for behavioral health care or service; and
- (v) 2,000 enrollees for substance use disorder care and services.

**Response:** All provider types exceeded the provider-to-enrollee ratio standards as indicated in the chart below:
