Report on the Medical Professional  
Liability Insurance Rate Stabilization  
Subsidy for 2007**

**December 1, 2006**

**Maryland Insurance Administration's Report on the Medical  
Professional Liability Insurance Rate Stabilization Subsidy for 2007**

I.	Introduction.....	1
II.	Annual Reporting.....	2
III.	Subsidy Factor.....	3
IV.	Subsidies Available to Each Medical Professional Liability Insurer.....	5
V.	Providers Eligible to Receive Subsidy.....	6

## **I. Introduction:**

Chapter 1, Laws of Maryland 2005 (Senate Bill 836) created the Maryland Health Care Provider Rate Stabilization Fund, which consists primarily of premium tax revenue collected from health maintenance organizations and managed care organizations. The Fund is divided into three sub-funds: the Rate Stabilization Account, the Medical Assistance Program Account, and a third component consisting of funds that are not allocated to either the Rate Stabilization Account or the Medicaid Account.

Monies allocated to the Rate Stabilization Account are to be used to pay authorized medical professional liability insurance premium subsidies (“State Subsidies”) to medical professional liability insurers who wish to participate in the Fund (“Participating Insurers”) on behalf of policyholders who are eligible health care providers.

State Subsidies are available only to licensed physicians and certified midwives. State Subsidies are not available to corporate entities through which they practice or to other health care providers.

The Fund replaced the Maryland Medical Professional Liability Insurance Rate Stabilization Fund that had been created by Chapter 5, Laws of Maryland 2004 (Special Session).

## **II. Annual Reporting:**

§19-806 of the Insurance Article requires that on or before December 1 of each year from 2005 to 2007, the Commissioner shall report to the Legislative Policy Committee, in accordance with §2-1246 of the State Government Article, the following:

- 1) The subsidy factor for the following calendar year;
- 2) The money available to each medical professional liability insurer; and
- 3) The number of health care providers by classification and geographical territory eligible to receive a State Subsidy from the Rate Stabilization Account.

### **III. Subsidy Factor:**

For policies with an effective date during calendar year (Subsidy Year) 2007, the State Subsidy is to be calculated as the policyholder's premium for the prior year times the *2007 Subsidy Factor*. Premium increases resulting from the imposition of a surcharge and/or the loss of a discount due to the policyholder's loss experience are not subsidized and are subtracted from the calculation of the premium before the State Subsidy is calculated.

In State fiscal year 2008, §19-803(b)(3) of the Insurance Article allocates \$35,000,000 to pay State Subsidies for Subsidy Year 2007. Pursuant to §19-803(d)(1) of the Insurance Article, the Commissioner may provide up to 5% of any year's allocation to pay State Subsidies for the policyholders of a medical professional liability insurer that did not earn premiums for coverage to health care providers in the previous calendar year in Maryland.

For policies with an effective date during Subsidy Year 2007, the State Subsidy provided is a percentage of the policyholder's premium for the prior year that equals the quotient, measured as a percentage of the balance of the Rate Stabilization Account for the current calendar year divided by the aggregate amount of premiums for medical professional liability insurance that would have been paid by health care providers at the approved rate during the prior calendar year (the "*2007 Subsidy Factor*").

Based upon the statutory allocation of funds for 2007 State Subsidies, divided by the aggregate amount of premiums for medical professional liability insurance that would have been paid by policyholders eligible for a State Subsidy at the approved rates during

the prior year, the Administration has determined the *2007 Subsidy Factor* to be **17%**.

The Bulletin issued by the Administration on the 2007 Subsidy factor can be found at

Exhibit 1.

#### **IV. Subsidies Available to Each Medical Professional Liability Insurer:**

Exhibit 2 illustrates for each medical professional liability insurer participating in the Rate Stabilization Fund during Subsidy Year 2006, the amount allocated for State Subsidies for Subsidy Year 2007. As previously noted, pursuant to §19-803(d)(1) of the Insurance Article, the Commissioner may provide up to 5% of any year's allocation to pay State Subsidies for the policyholders of a medical professional liability insurer that did not earn premiums for coverage to health care providers in the previous calendar year in Maryland. Accordingly, the Administration has allocated 5% of the total allocation to the Rate Stabilization Account for 2007 State Subsidies for future eligible policyholders of any new carrier. If additional carriers enter the Maryland market that were not writing medical professional liability insurance in Maryland in 2006, §19-803(d)(1) provides that funds allocated to current Participating Insurers may need to be reduced on a pro-rata basis.

## **V. Providers Eligible to Receive Subsidy**

Exhibit 3 summarizes the number of health care providers by classification and geographical territory eligible to receive a State Subsidy from the Rate Stabilization Account. This information was compiled from data received from the five insurance carriers participating in the Rate Stabilization Account in 2006.

### **MIA BULLETIN 06-19**

**TO:** Property and Casualty Insurance Companies Holding Certificates of Authority to Write Medical Professional Liability Insurance Business in Maryland

**SUBJECT:** Maryland Health Care Provider Rate Stabilization Fund - Rate Stabilization Account - 2007 Subsidy Factor

**DATE:** October 17, 2006

---

MIA Bulletin 05-7, *Procedures for Obtaining Reimbursements from the Maryland Health Care Provider Rate Stabilization Fund - Rate Stabilization Account*, described in detail how Chapter 1, Laws of Maryland 2005 (Senate Bill 836) created the Maryland Health Care Provider Rate Stabilization Fund (the "Fund"), which consists primarily of premium tax revenue collected from health maintenance organizations and managed care organizations. The Fund is divided into three sub-funds: the Rate Stabilization Account (the "RS Account"); the Medical Assistance Program Account (the "Medicaid Account"); and a third component consisting of funds that are not allocated to either the RS Account or the Medicaid Account.

Monies allocated to the RS Account are to be used to pay authorized medical professional liability insurance premium subsidies ("State Subsidies") to medical professional liability insurers who wish to participate in the Fund ("Participating Insurers") on behalf of policyholders who are eligible health care providers.

The purpose of this Bulletin is to advise participating insurers of the Subsidy available for Subsidy Year 2007<sup>1</sup>. The procedures for calculating 2007 State Subsidies

---

<sup>1</sup> The term "Subsidy Year" is used to specify which policies issued by a Participating Insurer are eligible for specified State Subsidies. As an example, Subsidy Year 2007 refers to policies that, pursuant to §19-805(b)(2) of the Insurance Article, are subject to rates that were approved for an initial effective date on or after January 1, 2007, but prior to January 1, 2008. For a Participating Insurer that sought and obtained a rate increase on new and renewal business that became effective on January 1, 2007, Subsidy Year 2007 would run from January 1, 2007 through December 31, 2007. For a Participating Insurer that sought and obtained a rate increase on new and renewal business that became effective on April 1, 2007, Subsidy Year 2007 would run from April 1, 2007 through March 31, 2008.

and obtaining reimbursements from the Rate Stabilization Account will be addressed in a later bulletin.

For state fiscal year 2008, §19-803(b)(3) of the Insurance Article allocates \$35,000,000 to pay subsidies for calendar (subsidy) year 2007. Pursuant to §19-803(d)(1) of the Insurance Article, the Commissioner may provide up to 5% of any year's allocation to pay subsidies for the policyholders of a medical professional liability insurer that did not earn premiums for coverage to health care providers in the previous calendar year in Maryland.

For policies with an effective date during Subsidy Year 2007, the subsidy provided is a percentage of the policyholder's premium for the prior year that equals the quotient, measured as a percentage of the balance of the rate stabilization account for the current calendar year divided by the aggregate amount of premiums for medical professional liability insurance that would have been paid by health care providers at the approved rate during the prior calendar year (the "2007 Subsidy Factor").

Based upon the statutory allocation of funds for 2007 subsidies, divided by the aggregate amount of premiums for medical professional liability insurance that would have been paid by policyholders eligible for a subsidy at the approved rates during the prior year, the Administration has determined the 2007 Subsidy Factor to be 17%.

For insurers writing medical professional liability insurance in Maryland in 2006, the 17% 2007 Subsidy Factor is to be used to determine the subsidy amount for each eligible health care provider. If additional carriers do enter the Maryland market, §19-803(d)(1) provides that funds allocated to current participating insurers may need to be reduced on a pro-rata basis.

R. Steven Orr  
Insurance Commissioner

Maryland Insurance Administration  
Rate Stabilization Account  
2007 Allocation Amount for Each Participating Insurer

	2007 Allocation Amount
Medical Mutual Liability Insurance Society of Maryland	\$ 22,850,000
NCRIC, Inc.	1,500,000
The Doctors Company, an Interinsurance Exchange	4,800,000
Medical Protective Company	2,250,000
Maryland Healthcare Providers Insurance Exchange	1,850,000
Subtotal - Current Participating Insurers	\$ 33,250,000
Allocation under §19-803(d)(1) of the Insurance Article ( <b>NOTE 1</b> )	1,750,000
Total Subsidy Year 2007 Allocation	\$ 35,000,000

**NOTE 1:** Pursuant to §19-803(d)(1) of the Insurance Article, the Commissioner may provide up to 5% of any year's allocation to pay subsidies for the policyholders of a medical professional liability insurer that did not earn premiums for coverage to health care providers in the previous calendar year in Maryland. This amount represents a 5% allocation for a new carrier that may apply for a Certificate of Authority to write medical professional liability insurance in Maryland.
