## Actuarial Memorandum

## UniProduct Series which includes Policy Forms: TLC 1-FP (MD) 402, TOL 1-FP (MD) 402 and LI 1-FP (MD) 402

## Long Term Care Coverage

## 1) Scope and Purpose

This rate filing is a request for a premium rate increase on the base policy as well as all associated riders for all lifetime premium paying insureds covered under the above captioned policy forms. The purpose of this memorandum is to file revised premium rates and demonstrate that the anticipated loss ratio meets the minimum requirements of Maryland. This memorandum is not to be used for other purposes.

The proposed rate increase does not apply to policies that were purchased with a singlepay or limited-pay premium payment plan. The experience for policies with these premium payment plans has also been excluded from all analysis and justification for the proposed rate increase.

This rate filing is a request for two annual $15 \%$ increases in premium, the first of which is to be effective upon approval by the state, on the base contract and all associated riders. This is in follow up to the 2017 approval of $15 \%$. The originally requested rate increase of the prior filing was $65 \%$.

This premium rate increase is needed due to claim levels that produce lifetime loss ratios above the statutorily required minimum loss ratio.

The requested rate increase will take effect upon approval by the Maryland Department of Insurance subject to all notification requirements. The requested premium rate increase is needed because experience has exceeded the margin for adverse experience included in the original pricing, resulting in lifetime loss ratios that exceed the standards for rate action under the rate stability regulations.

This filing is also a request to allow the Company to make available to eligible policyholders with a benefit increase option (BIO) the means to completely offset the requested rate increase by agreeing to reduce the BIO growth factor applicable to their policy. If elected, the reduced BIO growth factor would begin to apply on the anniversary date following the effective date of the rate increase. Once applicable, the reduced BIO factor would remain in effect in all future years the policy remains inforce. The growth in policy benefits accumulated from issue-to-date would not be lost for policyholders electing this downgrade option. Policyholders eligible for this downgrade option would be limited only to those who currently have BIO included on their policy where benefit growth is unlimited. The reduced future BIO growth factors to which policyholders would need to agree to completely offset the requested rate increase are as follows:

| BIO Type | Current BIO <br> Growth Factor | Future BIO <br> Growth Factor |
| :--- | :--- | :--- |
| Compound | $5.00 \% /$ year | $3.44 \% /$ year |
| Compound | $3.00 \% /$ year | $2.23 \% /$ year |
| Simple | $5.00 \% /$ year | $3.33 \% /$ year |

This BIO downgrade offer would only affect the rate increase request of this filing. Policyholders who elect this BIO downgrade offer may still be subject to additional future rate action were it to become justified due to further deterioration of experience not currently anticipated as explained in the second prior paragraph.

These Future BIO Growth Factors were calculated using a Gross Premium Valuation (GPV) approach which calculates the present value of all premiums less all benefits and expenses to determine the profits of the block of business using the various assumptions explained in later sections of this memorandum. The GPV was first calculated using the one-time rate increase percentage, e.g., the 65\%. Then, the GPV was calculated without the one-time rate increase but with the BIO growth factors reduced. This calculation was iteratively repeated until the GPV result matched that calculated with the one-time rate increase. Thus the Future BIO Growth Factors produce the same present value results as the requested rate increase.

The requested rate increase percentage will not vary by issue age, benefit period, benefit increase option, or any other component of the coverage.

## 2) Benefits *

## Base Benefits

## A. Nursing Home Benefit

Once the Elimination period has been met, the actual charges incurred for each day the Insured Person is confined to a Nursing Home will be paid, up to the Maximum Daily Benefit.
B. Bed Reservation Benefit

When an Insured Person is absent for any reason other than discharge during a Nursing Home or Assisted Living confinement, we will (1) pay the actual charges incurred for room and board while the room is being reserved, up to the Maximum Daily Benefit, if the Elimination Period has been satisfied, (2) give credit toward the satisfaction of the Elimination Period where the absence occurs while the Elimination Period is being satisfied; or (3) a combination of (1) and (2).
C. Assisted Living Facility Benefit

The actual charges for room and board and necessary maintenance and personal care expenses incurred for each day the Insured Person is confined to an Assisted Living Facility, up to the Maximum Daily Benefit, will be paid if treatment and/or services are received from a licensed, registered or certified Assisted Living Facility.

[^0]D. Home Health Care and Adult Day Care Benefit

The actual charges incurred for each day the Insured Person receives Home Health Care and Adult Day Care, up to the Maximum Daily Professional Services Benefit or the Maximum Daily Basic Services Benefit (whichever is applicable), will be paid.

## E. Alternative Payment Benefit

Once an Insured Person has met the benefit eligibility, the insurer will pay the Monthly Benefit in advance each calendar month. This benefit will be paid in lieu of all other benefits for care or services provided under this policy.
F. Respite Care Benefit

The actual charges incurred for Respite Care, up to the Respite Care Maximum Daily Benefit(s), will be paid if such treatment and/or services are received from a Nursing Home, and Assisted Living Facility or in the Insured Person's Home.
G. Hospice Care Benefit

The actual charges incurred for each day an Insured Person receives Hospice Care, up to the Maximum Daily Benefit, will be paid by the insurer if it has been estimated by a doctor that the Insured Person has a life expectancy of 6 months or less and no reasonable prospect of cure and the treatment and/or services are received from a Hospice Care Provider.
H. Therapeutic Device Benefit

The actual charges incurred for the rental or purchase of a Therapeutic Device will be paid by the insurer if:

1. the Insured Person is receiving the Care Coordination Benefit; and
2. the Therapeutic Device is used in the Insured Person's Home.
I. Medical Alert System Benefit

The actual charges incurred for a Medical Alert System will be paid by the insurer for either: (1) rental and/or monitoring costs, not to exceed the monthly Medical Alert System Benefit; or (2) at the discretion of the insurer, the actual purchase cost of a Medical Alert System if the Insured Person is receiving the Care Coordination Benefit.

## J. Home Modification Benefit

The actual charges incurred, not to exceed the Maximum Lifetime Home Modification Benefit, for labor, equipment and supplies needed in making minor modifications to the Insured Person's Home that will enhance his or her ability to perform the Activities of Daily Living and allow the Insured Person to safely remain in his or her home will be paid by the insurer if the Insured Person is receiving the Care Coordination Benefit.
K. Caregiver Training Benefit

The actual charges incurred for Caregiver Training of the Insured Person or a Volunteer Caregiver to assist an Insured Person, not to exceed the Maximum Lifetime Caregiver Training Benefit, will be paid by the insurer if:

1. the Insured Person is receiving the Care Coordination Benefit; and
2. Caregiver Training is not already provided free of charge by an equipment or supply vendor.
L. Waiver of Premium

Premiums will be waived on a monthly basis once the Elimination Period has been met and while the Insured Person is receiving Nursing Home, Assisted Living Facility, Home Health Care or Adult Day Care benefits, or the Alternate Payment Benefit.
M. Contingent Non-forfeiture Benefit - Shortened Benefit Period

In the event that premium rates increase to a level which results in a cumulative increase of the premium equal to or exceeding the percentage of the initial premium set forth in the Triggers for a Substantial Premium Increase table, the Insured Person will receive the Contingent Non-forfeiture benefit, and he or she may elect to: (1) reduce current benefits; or (2) during the 120 days following the Premium Due Date on which the increased premium would first have become due, convert his or her coverage as follows:

1. the daily benefit amounts available will remain as they were at the time coverage would have lapsed under the policy;
2. the total benefit amount in force under this benefit will be equal to the amount of all premium paid, excluding waived premiums, for all coverage combined including this benefit.
The minimum benefit will be 30 times the daily benefit in force at the time the policy would have lapsed.

## Optional Benefits

## A. Prescription Drug Benefit in a Nursing Home

An Insured Person will receive the Prescription Drug Benefit if they are receiving prescription drugs while confined to a Nursing Home and receiving the Nursing Home Benefit.

## B. Ambulance Benefit

The actual charges incurred for emergency ambulance service to or from a Nursing Home, up to the Maximum Benefit for each Ambulance Trip, will be paid if the Insured Person has not reached the Maximum Benefit Limitation or the Maximum Number of Trips per Calendar Year.

## C. Monthly Home Care Benefit

If the Insured Person is receiving the Care Coordination Benefit, the actual charges incurred for Home Health Care and Adult Day Care will be paid on the basis of services received during each continuous 30-day period rather than on a daily basis. This benefit will be in lieu of the Home Health Care and Adult Day Care Benefit.
D. Professional Services Benefit at 2 times Basic Services

An applicant may choose to have a Maximum Daily Benefit for Professional Services equal to 2 times the Maximum Daily Benefit for Basic Services.
E. Nursing Home Indemnity Payment Option

In lieu of the Nursing Home Benefit, the full amount of the Nursing Home Maximum Daily Benefit will be paid to the Insured Person.

## F. Full Restoration of Benefits

Once a period of time during which the insurer has been paying benefits under the policy has ended, the benefit amounts that have been paid will be restored to the
remaining applicable Maximum Benefit if the Insured Person has ceased to be a Chronically III Individual for at least 180 consecutive days and the policy remains in force.

## G. Joint Waiver of Premium Benefit

When the spouse of an Insured Person is receiving the Waiver of Premium Benefit, the Insured Person's premiums will be waived if both the Insured Person and spouse are insured as a married couple on the same policy form series which includes this Joint Waiver of Premium Benefit.
H. Survivorship-Waiver of Premium (insured under same policy)

The premiums for the surviving Insured Person will be waived, after the last of the following to occur: (1) the date of death of the other Insured Person; or (2) the tenth anniversary of the effective date of this policy, if:

1. The Insured Person and other Insured Person have coverage in force under this policy; and
2. the other Insured Person dies while this policy is in force.

Several variations of this benefit are that the Insured Person(s) must not have incurred any claims and / or a death did not occur during the Number of Years Insured shown on the schedule, and listed below:

1. No deaths within the first 5 policy years,
2. No deaths or claims within the first 5 policy years, and
3. No deaths or claims within the first 10 policy years.

## I. Spouse Survivorship -Waiver of Premium (insured under separate policies)

The premiums for the surviving Insured Person will be waived, after the last of the following to occur: (1) the date of death of the spouse; or (2) the tenth anniversary of the effective date of this policy, if:

1. The Insured Person and the spouse have coverage in force under this form series; and
2. the spouse dies while both policies are in force.

Several variations of this benefit are that the Insured Person(s) must not have incurred any claims and / or a death did not occur during the Number of Years Insured shown on the schedule, and listed below:

1. No deaths within the first 5 policy years,
2. No deaths or claims within the first 5 policy years, and
3. No deaths or claims within the first 10 policy years.

## J. Simple Benefit Increase Option

Every dollar benefit amount will increase by the percentage shown on the schedule of the original dollar benefit amounts on each anniversary of the option, up to the Maximum Multiple, so long as the option remains in force.

Several variations of this option were priced:

1. $3 \%$, with unlimited increases,
2. $3 \%$, with increases capped at 2 times the original benefit amount,
3. $5 \%$, with unlimited increases, and
4. $5 \%$, with increases capped at 2 times the original benefit amount.
K. Compound Benefit Increase Option

Every dollar benefit amount will increase by the percentage shown on the schedule of the current dollar benefit amounts on each anniversary of this option, up to the Maximum Multiple, so long as the option remains in force.

Several variations of this option were priced:

1. $3 \%$, with unlimited increases,
2. $3 \%$, with increases capped at 2 times the original benefit amount,
3. $5 \%$, with unlimited increases, and
4. $5 \%$, with increases capped at 2 times the original benefit amount.
L. Step Rated Compound Benefit Increase Option

Current premiums will increase and every dollar benefit amount will increase by the percentage shown on the schedule on every anniversary, every third anniversary or fifth anniversary of this option so long as the option remains in force. This option is not available on any limited payment plan.

## M. Deferred Benefit Increase Option

The Insured Person may add a Benefit Increase Option without evidence of insurability within the 90 day period prior to the first, third, or fifth anniversary of the policy, if they have not incurred a claim. The additional premium required for the Benefit Increase Option selected will be based on the attained ages of the Insured Persons when this option is exercised, and the increases in dollar benefit amounts will take effect on the second anniversary after this option is exercised.
N. Guaranteed Purchase Option

The Insured Person will have the opportunity to purchase additional coverage equal to $16 \%$ of the amounts initially elected on each of the Purchase Option Dates without evidence of insurability if:

1. The Insured Person has not reached the Attained Age Limit;
2. The policy is in force on the Purchase Option Date,
3. Prior to age 70 this benefit will terminate if the Insured Person does not elect to purchase the additional amount on any two Purchase Option Dates;
4. On and after age 70, this benefit will terminate if the Insured Person does not elect to purchase the additional amount on any Purchase Option Date.
O. Non-forfeiture Benefit - Shortened Benefit Period

Once an Insured Person's coverage has been in effect for at least 3 full years, coverage will continue on a limited basis when it would otherwise have lapsed for nonpayment of premium with the following conditions:

1. the daily benefit amounts available will remain as they were at the time coverage would have lapsed under the policy;
2. the total benefit amount in force under this benefit will be equal to the amount of all premiums paid, excluding waived premiums, for all coverage combined including this benefit; and
3. the minimum benefit provided will be equal to 30 times the daily benefit in force at the time the Policy would have lapsed.
P. Patient Advocacy and Medication Management Benefit

The cost of unplanned visits, not more often than once each 6 months, from a person contracted by the insurer to a covered facility for the purpose of assessing living conditions in the facility and the care being received by the Insured Person will be paid if:

1. the insured is permanently confined to a facility covered in the policy, and
2. the insured is receiving the Care Coordination Benefit.

The actual charges incurred for services provided by a Nurse in helping the Insured Person to comply with his or her medication/treatment regimen will be paid by the insurer if the Insured Person is receiving the Care Coordination Benefit.

## Q. Rate Guarantee

A 3 year rate guarantee is available at no extra charge. Rate guarantees in whole year increments are also available for an additional charge.

## 3) Renewability

These policy forms are guaranteed renewable for life, subject to the company's right to change premium rates.

## 4) Applicability

This filing applies to inforce insureds. The premium change will be applicable to the base rates. There will be no change to the original factors that are applied to the base rates.

## 5) Morbidity

The underlying claim costs are based on internal data derived from company experience. The claim costs represent best estimate values and do not include an explicit provision for moderately adverse conditions.

The original morbidity assumptions were based on data from Milliman USA's 1997 LTC Guidelines and available internal experience. Claim cost modifiers were developed, based on data from Milliman USA and available internal experience, to reflect the effect of underwriting on the ultimate claim costs and varied by marital status, issue age and benefit period.

As shown in the enclosed Exhibit II, the projected lifetime Actual to Expected Incurred Claims is 196\%. So the current assumption for morbidity is $96 \%$ higher than used in pricing. This exceeds the moderately adverse conditions assumption in the original pricing, which was $10 \%$.

The current morbidity assumption used in this rate increase filing is consistent with the assumption the Company has used for currently marketed policy forms.

## 6) Off-Claim Mortality

The 1983 GAM mortality table, with select factors based on company experience, was used for projecting future mortality.

The original total in-force mortality assumptions were the ultimate mortality rates of the 1983 Individual Annuitant Mortality Table adjusted by selection factors.

As shown in the enclosed Exhibit II, the projected lifetime Actual to Expected Earned Premiums is $109 \%$, so actual mortality rate and/or lapse rate has been smaller than assumed in the original pricing; however, the overall result of mortality and persistency has been within the moderately adverse conditions assumption in the original pricing.

## 7) Persistency

Voluntary lapse rates are based on Company experience and vary by duration and issue age. Different lapse rates are assumed based on inflation option and marital discount.

## 8) Expenses

Expenses have not been explicitly projected. It is assumed that the originally filed expense assumptions remain appropriate.

## 9) Marketing

These policy forms were marketed by agents to individuals 18 years and older. In addition, employers, associations, or affinity groups were accepted for group sponsored rates under this individual policy. Members and/or employees of such groups, employees of group members, and anyone who is at least 18 years of age and who is related to group members and employees of group members by blood, marriage, or domestic relationship can be included.

## 10) Policy Design

Policy design features have been taken into consideration. Benefit provisions, exclusions, elimination periods, benefit periods, number of units, benefit growth, etc. have been accounted for either in the development of claim costs or projection model formulas.

## 11) Underwriting

These policy forms were underwritten with the use of various underwriting tools in addition to the application, which may have included medical records, an attending physician's statement, telephone interview and/or face-to-face assessment. The effect of underwriting has been incorporated into the projection.

## 12) Claims Adjudication Practice

No significant changes to the standard operating practices of the Claims Department have been necessary to date nor are any changes expected to be necessary in the future. The claim adjudication staff has maintained a consistently high degree of expertise, experience, and performance over the life of these policy forms and this is expected to continue in the future. Therefore, special adjustments due to claim adjudication practice have not been incorporated into the projection.

## 13) Premiums

Premiums vary based on original issue age, rate class, and benefit options selected.

## 14) Issue Age Range

Applicants age 18 years and older were eligible for all elimination periods and benefit periods.

## 15) Area Factors

Area factors are not used for these products.
16) Average Annual Premium

Before increase: \$1,661. After first increase: \$1,910. After second increase: \$2,197.

## 17) Premium Modalization Rules

Modal factors which are applied to the annual premium are no greater than as follows:

| Annual | 1.000 |
| :---: | :--- |
| Semi-annual | 0.520 |
| Quarterly | 0.265 |
| Monthly | 0.090 |

## 18) Claim Liability and Reserve

The present value of amounts not yet due is calculated for all open claims using termination rates derived from company experience. The resulting reserve is adjusted by factors based on age at incurral, gender, and benefit period developed from company experience. The interest rate varies by year of incurral. The incurred but not reported and in course of settlement reserves are calculated based on the development of incurred claims by month of incurral, based on internal Company data. The claim reserves underlying the incurred claims in the projection are consistent with the reserves reported in Exhibits 6 and 8 of the Company's financial statement.

## 19) Active Life Reserve

Active life reserves have not been used in this rate filing to demonstrate compliance with the minimum loss ratio requirement. The inclusion of active life reserves would result in a larger justifiable rate increase based on loss ratios and actual-to-expected projections.
20) Trend Assumptions

As this is not medical insurance, we have not included any explicit medical cost trends in the projections.

## 21) Anticipated Loss Ratio

The original anticipated lifetime loss ratio for these policy forms was $60 \%$.

## 22) Distribution of Business

The distribution of in-force policies by issue age, benefit period, elimination period and benefit increase option are:

## By Issue Age

| Issue Age Band | \% of Policies |
| :---: | :---: |
| 0 to 59 | $48.7 \%$ |
| 60 to 64 | $26.8 \%$ |
| 65 to 69 | $16.2 \%$ |
| 70 to 74 | $6.6 \%$ |
| 75 to 79 | $1.6 \%$ |
| $80+$ | $0.1 \%$ |

## By Elimination Period

| Elimination Period | \% of Policies |
| :---: | :---: |
| 30 days or less | $5.5 \%$ |
| 60 days | $4.9 \%$ |
| 90 days | $87.5 \%$ |
| Over 90 days | $2.1 \%$ |

By Maximum Benefit Period

| Benefit Period | $\%$ of Policies |
| :---: | :---: |
| 2 years or less | $5.3 \%$ |
| 3 years | $33.8 \%$ |
| 4 years | $29.1 \%$ |
| 5 years | $14.5 \%$ |
| Unlimited | $17.3 \%$ |

## By Benefit Increase Option

| Increase Option | \% of Policies |
| :---: | :---: |
| None | $40.1 \%$ |
| Simple | $20.6 \%$ |
| Compound | $39.3 \%$ |

## 23) Margin for Moderately Adverse Conditions

The margin included in the original pricing of these policy forms was the greater of a $10 \%$ increase in morbidity, $10 \%$ decrease in mortality or $10 \%$ decrease in lapses. Actual historical experience combined with revised assumptions for morbidity and persistency have resulted in lifetime expected loss ratios significantly greater than those anticipated at the time of original pricing. The enclosed Exhibit II shows that the projected lifetime Actual to Expected Incurred Claims is much greater than the 110\% level of morbidity included under adverse conditions. The current margin for moderately adverse conditions is a $10 \%$ increase in expected morbidity.

The proposed rate increase is less than that justified by the 58/85 loss ratio standard in the rate stability regulations. As such, there is no margin for adverse experience in the filing exhibits, unless specifically requested and noted. The rate increase we are requesting was determined by a Gross Premium Valuation analysis, which is why we are requesting considerably less increase than the rate stability regulations would require.

## 24) Experience on the Form

The enclosed Exhibit I displays calendar year historical experience as well as projected experience both with and without the proposed rate increase with June 30, 2017 as the break point between historical actual and projected future values. Exhibit II displays that same experience by policy year duration and includes an actual to expected analysis. These exhibits include the experience of all policies of these policy forms regardless of issue date.

The enclosed Exhibit I shows that the 58/85 test is satisfied using the original expected pricing loss ratio of $60 \%$ both without a margin for moderately adverse conditions and with a 10\% margin for future adverse claims experience.

See Exhibit I for nationwide calendar year historical experience through June 30, 2017, as well as projected experience thereafter both with and without the proposed rate.

See Exhibit II for nationwide actual-to-expected experience by duration where 'actual' experience includes historical experience through June 30, 2017. Historical Incurred Claims reflect claim payment runoff through October 31, 2017 plus the claim reserve estimate as of October 31, 2017 (as described in Section 18 above).

## 25) Interest Rate

The interest rate used to discount the values displayed in all exhibits is $4.5 \%$.

## 26) History of Rate Adjustments

A 15\% rate increase was approved in 2017 and implemented in 2018.

## 27) Number of Policyholders

As of September 30, 2017, the number of policies that will be affected by this increase is:

|  | Insureds | Annualized <br> Premium |
| :--- | ---: | ---: |
| Maryland | 210 | $\$ 349,950$ |
| Nationwide | 19,247 | $\$ 31,973,474$ |

## 28) Proposed Effective Date

The increase will be implemented within 3 months following approval after fulfillment of all statutory and contractual requirements.

## 29) Actuarial Certification

I certify that to the best of my knowledge and judgment, this premium rate filing complies with the applicable laws of the state of Maryland, with the rules of the Department of Insurance, and with Actuarial Standard of Practice Nos. 8 and 18. Going forward, the

Company will continue to monitor the experience of this block and reserves the right to take additional rate action if currently unanticipated future deterioration thereof justifies.
