Re: Report required by State Government Article § 2–1246 (MSAR # 10419)

Dear President Ferguson and Speaker Jones:

Pursuant to Section 2-10A-03 and in accordance with § 2–1246 (MSAR # 10419) of the State Government Article of the Annotated Code of Maryland, the Maryland Insurance Commissioner issues an Annual Report (“Report”) to the Joint Committee on Workers’ Compensation Benefit and Insurance Oversight. The attached Report describes the condition of workers’ compensation benefits and workers’ compensation insurance in Maryland. The Report also illustrates the effect of Chapters 590 and 591 of the Laws of Maryland of 1987 on workers’ compensation benefits and workers’ compensation insurance.

Five printed copies of this report have been mailed to the DLS library for its records.

Should you have any questions regarding this report, please do not hesitate to contact me or my Director of Government Relations, Andrew Tress, at Andrew.tress1@maryland.gov.

Sincerely,

A handwritten signature in blue ink that reads "Kathleen A. Birrane". The signature is written in a cursive style.

Kathleen A. Birrane
Insurance Commissioner

EXECUTIVE SUMMARY

- Employers are required to purchase or self-insure for workers' compensation insurance. They may buy workers' compensation insurance from an insurer authorized to write workers' compensation insurance in the State or from Chesapeake Employers' Insurance Company ("CEIC").¹ Subject to regulatory approval, an employer may self-insure.²
- Ninety-nine insurance groups offered workers' compensation insurance to Maryland employers in 2020. Workers' compensation insurance is the third largest line in property and casualty insurance following auto insurance and homeowner's insurance.
- The top eight workers' compensation insurance groups, including CEIC, wrote approximately 59% of the market in 2021 (Exhibits 3 and 5). CEIC is the largest writer, accounting for about 19% of the market in 2021. The second largest writer is Hartford Fire and Casualty Group, accounting for about 11% of the market in 2021.
- The National Council on Compensation Insurance, Inc. ("NCCI") files pure premium loss costs rates with the Maryland Insurance Administration ("Administration" or "MIA") on behalf of all insurers who write workers' compensation insurance in the State. No insurer may use the NCCI's pure premium loss costs until those pure premium loss costs are approved by the MIA.
- NCCI filed decreases to the pure premium loss costs for calendar years (CY) 2007 - 2009, ranging from a low of -5.4% for 2009 to a high of -1.7% for 2008. Thereafter, NCCI filed increases for CY10 - 14 ranging from a high of 5.7% in 2011 to a low of 1.4% for 2012 and 2014. In CY15-21, NCCI filed decreases of -2.7%, -5.5%, -9.9%, -13%, - 6.9%, - 7%, - 9.6%, respectively. In 2022, NCCI recently filed a decrease of -.8 to be effective January 1, 2023.³ NCCI's pure premium loss cost filings are primarily based on actual claims experience, loss ratio trends, and the costs of indemnity (lost income) and medical benefits.
- Maryland's workers' compensation insurance market remains competitive, as evidenced by the large number of participating insurer groups and the spread of market share among these groups.

¹ As of October 1, 2013, the Injured Workers' Insurance Fund ("IWIF") became the Chesapeake Employers' Insurance Company ("CEIC"). For this report, all references are to CEIC.

² In order to be self-insured, approval must be obtained from either the Workers' Compensation Commission or the Maryland Insurance Administration, depending on the nature of the employer seeking to self-insure.

³ Effective January 1, 2023, CEIC becomes a member of NCCI. NCCI's latest loss costs filing, which is effective January 1, 2023, includes CEIC's loss costs data for the first time.

INTRODUCTION

Pursuant to Section 2-10A-03 of the State Government Article of the Annotated Code of Maryland, the Maryland Insurance Commissioner issues an Annual Report (“Report”) to the Joint Committee on Workers’ Compensation Benefit and Insurance Oversight.⁴ The Report describes the condition of workers’ compensation benefits and workers’ compensation insurance in Maryland. The Report also illustrates the effect of Chapters 590 and 591 of the Laws of Maryland of 1987 on workers’ compensation benefits and workers’ compensation insurance.⁵

OVERVIEW

Since the early 1900s, every state has required employers to provide some form of protection for employees who are injured while working. Workers’ compensation laws are based on a no-fault system designed to compensate workers who sustain accidental injuries arising out of and in the course of their employment. The forms of compensation may include payment for medical services, rehabilitation services, lost or replacement income, and any permanent partial or permanent total disability the worker may sustain as a result of the work-related injury or occupational disease. Should a worker die as a result of a work-related injury or disease, the benefits may also include funeral expenses and survivor benefits. Employers may purchase workers’ compensation insurance from an insurer authorized to write workers’ compensation insurance in the State, including CEIC. Subject to regulatory approval, an employer may self-insure.

Workers’ compensation insurance is a “long-tail” line of business, as claims may be open for long periods of time. Benefits may be awarded in stages and in various combinations of disability determinations and claims may be reopened at a later point in time resulting in the payment of additional benefits. All of these factors can make it difficult to accurately predict the cost of workers’ compensation claims.

The Maryland Workers’ Compensation Commission’s (WCC) Medical Fee Guide is one tool Maryland uses to curtail medical cost increases and assist workers’ compensation insurers in predicting the cost of claims. In an effort to further decrease medical cost trends, some workers’ compensation insurers enter into contracts with Preferred Provider Organizations (PPOs). Providers contracting with a PPO may agree to accept a lower fee than that established by WCC’s Medical Fee Guide. If an injured worker receives services from such a provider, the workers’

⁴ The Workers’ Compensation Commission (“WCC”) also submits a report to the Committee pursuant to § 2-10A-03.

⁵ Among other things, Chapter 590 established competitive rating for workers’ compensation insurance under certain circumstances. It also requires workers’ compensation insurers to adhere to a uniform classification system and uniform experience rating plan; permits an insurer to develop sub-classifications in certain cases; requires workers’ compensation insurers to record and report certain workers’ compensation experience; requires a rating organization to develop and file certain rules; prohibits insurers from agreeing with other insurers to adhere to certain rules; specifies the contents of an experience rating plan; and, permits insurers to file rating plans providing for retrospective premium adjustments. Chapter 591 provides, among other things, that the allowable fees and other charges for medical treatment and services established by the WCC shall be reviewed by the WCC at least once every two years for completeness and reasonableness, and that WCC-adopted guidelines be revised accordingly.

compensation insurer pays the provider in accordance with the PPO contracted rate or WCC’s Medical Fee Guide, whichever is less. Further, under the State of Maryland’s all-payer hospital rate setting system, workers’ compensation insurers pay the same amount for hospital services as all other payers.

2022 LEGISLATIVE CHANGES IMPACTING WORKERS’ COMPENSATION

There were no bills from the 2022 session of the Maryland General Assembly passed into law that involved workers’ compensation claims or benefits.

WORKERS’ COMPENSATION INSURERS

Ninety-nine insurance groups, including CEIC, offered workers’ compensation insurance to Maryland employers in 2021. In total, these insurers wrote \$874,169,563 in direct written premium, an increase of less than 1% over 2020. This represents approximately 7% of the direct written premiums written by all property and casualty (“P&C”) insurers for all lines in Maryland. Exhibit 1 illustrates the workers’ compensation share of total P&C industry written premium in the State for the period 2004 to 2021.

The top 10 workers’ compensation insurance groups, including CEIC, wrote 64.37% of the market in 2021. CEIC wrote 19.3%. The top 10 insurers, excluding CEIC, wrote 45.06% and the remaining insurers wrote 35.63%. **Table 1** below displays the market share for the top ten insurance groups.

Table 1: Market Share Largest Writers, 2020 and 2021		
Insurance Group	Percentage Market Share, 2020	Percentage Market Share, 2021
Chesapeake Employers Insurance Company	19.7 (first)	19.3 (first)
Hartford Fire and Casualty Group	10.5 (second)	10.9 (second)
Erie Insurance Group Travelers Group	6.6 (third)	6.3 (third)
Travelers Group	6.5 (fourth)	5.8 (fourth)
BCBS of MI Group	4.7 (fifth)	4.5 (sixth)
Zurich Insurance Group	4.5 (sixth)	4.9 (fifth)
Chubb LTD Group	3.9 (seventh)	3.6 (eighth)
WR Berkley Corp Group	3.7 (eighth)	3.6 (seventh)
Liberty Mutual Group	3.4 (ninth)	3.1 (ninth)
CNA Insurance Group	-	2.3 (tenth)
American International Group	2.5 (tenth)	-

NOTE: Small changes in company/group market share resulted in the companies in the fifth and sixth positions changing order, and the companies in the seventh and eighth positions changing order in 2021. Small changes in market share resulted in AIG exiting the top-10 and CNA entering the top-10 in 2021.

Exhibits 2 through 6 provide additional data as follows:

- Exhibit 2 compares the market share for the top eight insurer groups from 2010 – 2021.
- Exhibit 3 lists Maryland workers' compensation 2021 market share by insurer group in descending order.
- Exhibit 4 lists the 2021 premium per group and per company within each group for each of the 99 companies.
- Exhibit 4A lists Maryland Excess Workers' Compensation Insurers. This coverage is designed for employers that self-insure up to a certain point and then purchase additional coverage for risk beyond that point.
- Exhibit 5, page 1, compares Maryland industry with CEIC's written premium for the period 2010 through 2021.
- Exhibit 5, page 2, compares the combined Maryland market share of the top eight carriers in premium volume from 2009 through 2021 with and without CEIC. CEIC remains the largest workers' compensation insurer in Maryland.
- Exhibit 6 lists new entrants and re-entrants into the market for 2021.

PREMIUM RATES

Insurance premium rates are regulated either through prior approval or through competitive rating (also known as "file and use"). If regulated through prior approval, insurers must file their proposed rates with the MIA and may only use those rates to determine the premium for a particular risk after the MIA has approved them. Under competitive rating, insurers file their proposed rates with the MIA and may use those rates to determine the premium for a particular risk as soon as the MIA has received the filing.

In Maryland, workers' compensation insurance is a blend of prior approval and competitive rating. In this line, all insurers, including CEIC (effective January 1, 2023), are required to subscribe to NCCI. NCCI is a licensed rating and advisory organization that files pure premium loss costs with the MIA. Pure premium loss costs reflect actual claim information submitted by insurers to the NCCI. Claim information includes lost wages and the cost of medical treatment. The NCCI aggregates this claim information for use in its pure premium loss costs filings. Pure premium loss costs do not include any other costs associated with writing workers' compensation insurance, such as profit, commissions, taxes and the expenses associated with providing the benefits to the injured worker (known as loss adjustment expenses or "LAE"). No insurer may use NCCI's pure premium loss costs until those costs have been approved by the MIA. NCCI's loss costs filings are typically effective beginning on January 1 of each year.

Once the MIA approves NCCI's pure premium loss costs, insurers may submit independent rate filings. These filings adopt the NCCI pure premium loss costs and may also include the insurer's expense multipliers. The expense multiplier consists of the following elements from an insurer's expense and profit information: (1) commission; (2) general expense; (3) taxes, licenses and fees; and, (4) profit. In addition, since NCCI does not include loss adjustment expense in its pure premium loss cost filings, companies modify their expense multiplier to include a component for loss adjustment expense. Each insurer's rates are derived by multiplying NCCI's pure premium loss costs by the insurer's calculated expense multiplier. The expense multiplier rate filings are

made under competitive rating, which means that insurers may begin to charge premiums based on the specific expense multiplier as soon as it has been filed with the MIA.

Effective January 1, 2023, pursuant to Chapter Law 36 (S.B. 465) of the 2015 Session Laws, which repeals Section 24-305 of the Insurance Article, Annotated Code of Maryland (“Insurance Article”), CEIC will be subject to Title 11 of the Insurance Article. This means that CEIC will become a member of NCCI and will be subjected to the requirements of Title 11 of the Insurance Article, in the same manner as the rest of the market. CEIC will also continue to fulfill its obligation as the workers’ compensation insurer of last resort for employers in the State pursuant to Section 24-306 of the Insurance Article.

A common measure to determine the portion of the premium dollar used to cover benefits is known as the “loss ratio.” A loss ratio of 70%, for example, means the insurer spent \$0.70 of each written premium dollar collected on benefits. As a group, workers’ compensation insurers had a collective loss ratio of 46.0% in 2021, including CEIC. CEIC’s loss ratio was 37.9% in 2017 marking the second time since 2004 that CEIC’s loss ratio was lower than the rest of the industry. It is to be noted that CEIC’s role as Maryland’s residual market insurer makes it susceptible to a higher loss ratio than the rest of the industry. Over the past 3 years, CEIC’s loss ratio has averaged 54.4%, while the industry without CEIC has averaged 45.1%. However, the industry loss ratio average over this same period with CEIC included is just 1.6 points higher than the industry without CEIC. Exhibit 7 compares CEIC’s loss ratios to those of the industry for the period 2008 to 2021.

Exhibits 8 through 12 illustrate various aspects of the history of NCCI pure premium loss costs filings in the state of Maryland as follows:

- Exhibit 8 compares the changes in NCCI Maryland pure premium loss cost filings with the MIA from 2001-2023.
- Exhibit 9 illustrates the history of NCCI Maryland pure premium loss costs changes by industry group from 2009-2023.
- Exhibit 10 compares the largest payroll classes by industry group for Maryland based on statewide payroll for the listed classifications and changes in the pure premium loss costs for businesses within each classification listed.
- Exhibit 11 illustrates the changes in the components of NCCI Maryland pure premium loss cost filings from 2008-2023.
- Exhibit 12, page 1, represents the cumulative impact of all NCCI statewide pure premium loss costs filings since 1996.
- Exhibit 12, page 2, shows this cumulative impact on an industry group basis.

NCCI filed its latest pure premium loss costs for Maryland with the MIA in August 2022. The filing has been approved by the MIA with an effective date of January 1, 2023. The overall approved change for this filing is -0.8%. This decrease is based on improvements in claims experience (-2.1%), a small increase in loss ratio trend (+1.1%), and relative stability in indemnity and medical benefit costs (+0.2%). The premium an employer is charged depends on the employer’s classification, payroll levels and other factors. Some employers may receive premium decreases while others may see premium increases.

TERRORISM RISK INSURANCE PROGRAM

In 2002, Congress enacted the Terrorism Risk Insurance Act (“TRIA”), creating a federal reinsurance program to assist insurance companies in paying for claims relating to acts of terrorism. The program was intended to be a temporary measure to allow time for insurers to develop solutions and products to insure against acts of terrorism. TRIA was set to expire in 2005, but was extended until 2007. In December 2007, it was extended for another 7 years until December 31, 2014. NCCI filed the loss costs with the MIA on July 24, 2014 to ensure time for a proper review and for insurers to adopt the filing and/or make changes to the loss costs multipliers they have on file. On January 12, 2015 the President signed into law TRIA of 2015, which amends the expiration date of TRIA to December 31, 2020. TRIA has again been extended by the President through December 31, 2027. Given this extension, NCCI will not be making additional filings as a result of an increased exposure related to TRIA.

COVID-19 IMPACT

To the extent that COVID-19 continues to have an impact on the overall economy, it will continue to have an indirect impact on workers’ compensation insurance through factors such as employment rates and salary levels, as well as inflation. NCCI reports that COVID-19 workers’ compensation claims declined in 2021, and the average cost per claim has been small (less than \$1,500 and, typically, medical or indemnity only). While unexpected developments in the course of COVID-19 could have an adverse impact on workers’ compensation rates in the future, the expectation for 2023 is that COVID-19 workers’ compensation claims, which are highly concentrated in the healthcare sector, will not present significant stress for the workers’ compensation system. Accordingly, with respect to the direct impact of COVID-19 on pure loss costs for the workers’ compensation line of business, NCCI has excluded these losses from its rate-making projections and relied upon its standard rate-making methods for this year’s filing. The MIA continues to monitor loss costs data and rating rule trends in the workers’ compensation market to ensure accurate classification of employees and the pricing of workers’ compensation coverage.

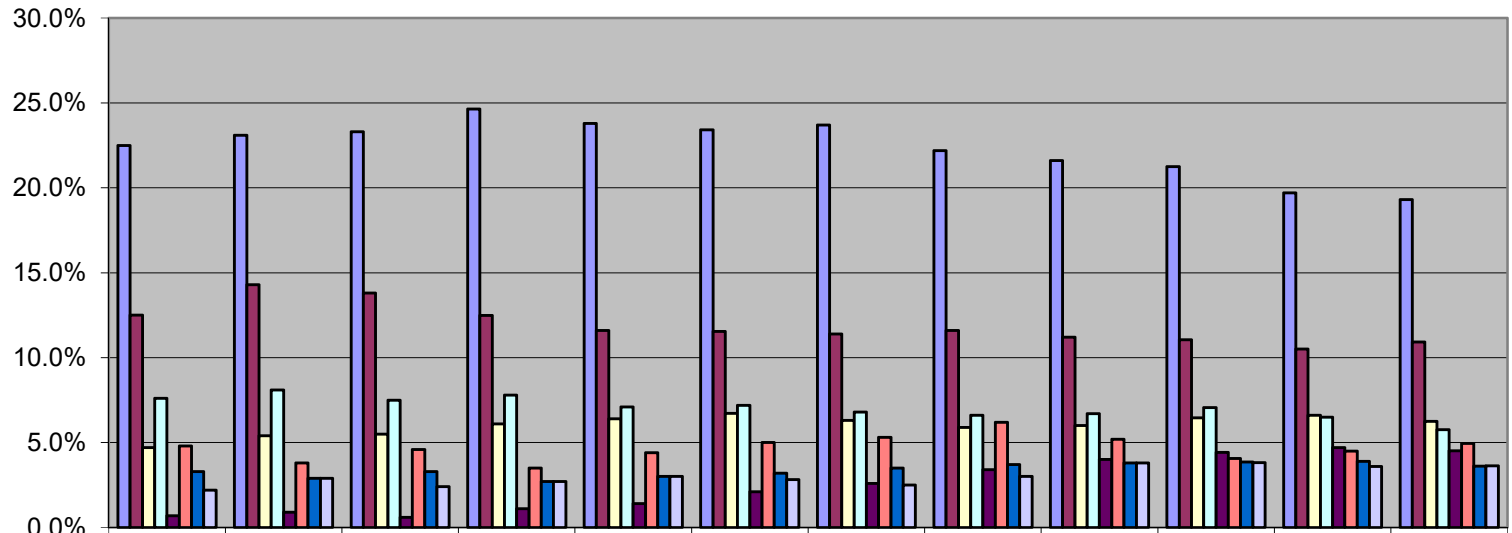

CONCLUSION

Ninety-nine insurers reported workers’ compensation insurance premium earned in Maryland. The total written premium in 2021 increased by less than 1% over 2020 to \$874,169,563. NCCI filed its pure premium loss costs for Maryland with the MIA in August 2022, and the filing was approved by the MIA with an effective date of January 1, 2023. This filing includes loss cost data from CEIC for the first time. The overall approved change for the NCCI pure premium loss costs was a decrease of 0.8%. The workers’ compensation market in Maryland remains healthy and competitive with a substantial number of participating insurers with stable and sustainable market shares.
