*Every Maryland Urgent Care Clinic we surveyed was able to provide care within 72 hours, and there are a sufficient number of Urgent Care Clinics within our Maryland network to provide care for 100% of enrollees. We also surveyed Maryland physician offices for urgent care appointment wait time, and 92% are able to provide urgent care within 72 hours. The combined number reported in the Executive Summary is slightly below the 95% standard. This represents a significant improvement in urgent care appointment wait times since our reporting in July 2018 (52% of Maryland physician offices surveyed were able to provide urgent care within 72 hours, with an overall average of 63% when combined with Urgent Care Clinics).
