Total percentage of telehealth appointments counted as part of the appointment waiting time standard results	0%	<b>4%</b>

\*Due to the current pandemic related to COVID-19, health care providers' appointment availability has been impacted. As part of UnitedHealthcare's process to assess network sufficiency and report to the Commissioner, UnitedHealthcare utilizes a survey process regarding appointment availability. There was unforeseeable overlap between when our surveys began and the impact of the pandemic. In an effort to avoid further compounding impact on providers, UnitedHealthcare halted the provider survey process in March. Consequently, UnitedHealthcare's network sufficiency results to date are incomplete and do not reflect a fulsome assessment of UnitedHealthcare's network providers' appointment availability. For this reason, UnitedHealthcare respectfully requests that the Commissioner consider these unforeseen circumstances, as acknowledged in Bulletin 20-27 issued 6/16/20, when evaluating UnitedHealthcare's compliance with network adequacy requirements.
