Comparison Guide to Maryland Medical Professional Liability Insurance Rates

How to Shop for Medical Professional Liability Insurance

Do comparison shopping. Comparison shopping is the key to getting the most for your insurance dollar and this is as true with regard to medical professional liability insurance as it is with other lines of insurance. You should contact several insurance producers (agents or brokers) and ask them which insurers they represent and what your premium would be for insurance through each company. You may want to ask co-workers and business contacts for recommendations or referrals to a licensed producer. The best time to shop for insurance is well before your current policy expires, you change or begin your practice, open or relocate your facility.

Ask for price quotes. In order to make an "apples to apples" price comparison, you must provide the same information to each insurance producer.

Ask for discounts. To keep rates down, ask what discounts the insurer offers and how you can qualify for them. Some insurers may offer discounts such as new practitioner discounts, part-time discounts, risk management program discounts, or government employee discounts.

Ask about deductibles and the required deductible offers. A deductible is the amount you agree to be responsible for in the event of a claim before the insurer required to make payments on your behalf. Deductibles may apply to liability coverage only or to other obligations or coverages, including defense costs, so be

sure to ask the insurer when the deductible applies. If you select a high deductible, you will pay more out of your own pocket for a claim; however, your premium should be lower as a result.

Pursuant to Section 19-114 of the Insurance Article, insurers are required to offer deductibles in the amount of \$25,000, \$50,000 and \$100,000. Please note that these specific statutorily required deductible offerings may be applied only to the liability coverage provided by the policy and not to any other obligations or coverages, including defense costs. However, the insurer may cancel your policy for nonpayment of the deductible in the event the deductible is due and payable under the policy. By law, the insurer must provide you with a 10-day notice of cancellation if the premium is not paid by the due date.

Defense Coverage for Disciplinary Hearings. Section 19-104 of the Insurance Article provides that a **Medical Professional Liability Policy** may include coverage for the defense of a health care provider in a disciplinary hearing arising out of the practice of the health care provider's profession if the cost of the included coverage is:

- itemized in the billing statement, invoice, or declarations page for the policy; and
- reported to the Commissioner in a form and manner required by the Commissioner.

Insurers may also offer a separate stand-alone policy with this coverage.

Protect yourself from insurance fraud. Once you have selected the insurer, contact the Maryland Insurance Administration ("MIA") to verify that your producer is placing you with an insurer that is licensed to sell medical professional liability insurance in the state. It is illegal for unlicensed insurance producers or insurers to sell insurance. You can get this information at www.statebasedsystems.com.

Surplus Lines Carriers and Risk Retention Groups. Surplus Lines Carriers and Risk Retention Groups usually specialize in the underwriting of certain specialties or physicians which licensed insurers will not write. Surplus Lines Carriers and Risk Retention Groups are not included in this Rate Comparison Guide, as these types of insurers do not have uniform rating structures and individual physicians are rated on an individual basis. Thus, providing premiums in a comparison guide is not feasible. Please note that if you are insured by a Surplus Lines Carrier or a Risk Retention Group, you are not protected by the Property and Casualty Insurance Guaranty Corporation; nor are you eligible for a premium subsidy under Section 19-801 et seq. of the Insurance Article.

What Factors Impact Rates?

Insurers determine rates based on the experience of their book of business and other factors that affect the ultimate amount of the premium charged to you. These rates are then classified by specialty or groups of specialties.

Other factors that impact premiums paid by physicians/healthcare providers:

- Location of practice
- Limits of liability
- Length of extended reporting period
- Claims experience

How to Use this Guide

1. Find the Rate Table that most closely reflects your area of practice or facility:
 - Table 1 - Physicians by Specialty
 - Table 2 - Surgeons by Specialty
 - Table 3 - Psychiatrists and Related Specialties
 - Table 4 - Various Nursing classes, Physicians Assistants
 - Table 5 - Optometrists, Pharmacists, Chiropractors, Podiatrists, Psychologists
 - Table 6 - Dentists, Dental Surgeons and other Dental Healthcare Professionals
 - Tables 7.1, 7.2, 7.3 and 7.4 - Medical Facilities and centers, hospice care programs, assisted living programs, ambulatory care facilities, rehabilitation facilities and specialized facilities
 - Tables 8.1, 8.2 and 8.3 – Various medical technicians and assistants, medical records technicians, therapists
2. Determine the territory where your practice or facility is located:
 - Baltimore City and Baltimore County
 - Anne Arundel, Howard, Montgomery, and Prince George's Counties
 - Rest of State
3. Compare the companies and premiums shown on the Rate Table.

Please note that the premiums listed in this Rate Comparison Guide reflect a mature physician with a clean claims history and limits of \$1,000,000/\$3,000,000. Thus, the premium you are quoted may differ from that which is listed in this guide.

Note: Rates and Availability are subject to change by the insurers

Notes to Rate Tables:

Throughout this guide, you will notice various specialties and specialty descriptions. These descriptions may vary by insurer and there may not be comparable premiums among insurers for your particular specialty. You will need to contact the insurance producer to determine which classification is available for your specialty.

You may notice that some specialties are not listed and this is because either the insurers do not write these specialties or they are only written by surplus lines insurers or risk retention groups. Additionally, some specialties may not be found because they are relatively new specialties and may be included in a more general class description.

The premiums shown for each specialty are base premiums by territory for policy limits of \$1,000,000 per incident / \$3,000,000 annual aggregate based upon mature claims-made rates, with a clean claims history, in effect on October 1, 2011.

Premiums shown in this guide do not account for other variables; such as any discounts for which you may qualify or any deductibles you may choose. Also, the premiums do not take into account where an insurer rates a specialty on multiple rate levels based on exposures. Because individual circumstances may vary, it is not possible to provide the exact amount of your premium for any one insurer. Some medical professionals may pay actual premiums less than or greater than those provided in this guide, based on their individual circumstances. If you would like to identify how your final premium will be determined, you should contact your insurance producer.

The premiums shown in this guide are mostly on a claims-made basis. However, a few insurers write certain healthcare professional liability policies on an occurrence basis. When buying a policy, please make sure whether your policy is on a claims-made or an occurrence basis.

List of Tables and related notes:

Note: "n/a" found in the tables indicates that insurers do not have rates available for that particular specialty, as their underwriting standards do not permit them to provide coverage for that particular exposure. In addition, some insurers rate certain specialties with multiple rate levels based on exposure – not all rate levels are shown.

Please refer to the attached exhibit for a table showing abbreviations that are used for insurer names through this guide.
