## (2) Appointment Waiting Time Standards

<b>Appointment Waiting Time Standard</b>	<b>% meeting the standard</b>

(b) List the total percentage of telehealth appointments counted as part of the appointment waiting time standard results.

We do not collect provider appointment wait time results based on overall utilization, nor do we ask providers to separate out responses between in-person and telehealth appointments. Therefore, we cannot calculate the percentage of telehealth appointments compared to in-person appointments for the purposes of Maryland specific wait time results. However, given the consistently available access to Teladoc within minutes from requesting an appointment, Aetna members have access to care at 100% compliance within the Maryland standards.
