**DATE: June 20, 2008**

**TO: Medical Professional Liability Insurers**

**RE: Medical Professional Liability Rate Guide**

\*\*\*\*\*

Pursuant to §2-303.2 and §19-112 of the Insurance Article, the Maryland Insurance Administration ("MIA") hereby requests each medical professional liability insurer that offers medical professional liability insurance policies in Maryland to provide information related to medical professional liability insurance premiums for the following:

- For healthcare professionals (physicians and surgeons);
- For hospitals, medical day care centers, hospice care programs, assisted living programs, and freestanding ambulatory care facilities;
- For dental healthcare professionals;
- For nursing and certain allied health professionals.

These rates should be the base rates charged by class and by territory for policy limits of \$1,000,000/\$3,000,000 based upon mature claims-made rates, with a clean claims history. Please provide the premiums as of October 1, 2008.

This information is necessary for the MIA to publish a medical professional liability rate comparison guide in accordance with §2-303.2 of the Insurance Article. The comparison guide will be posted on the MIA website and distributed in electronic and printed format.

The requested data should be provided in the required format (see attached). Please submit your data via email. Electronic submission is mandatory. No paper documents will be accepted. Data should be submitted to: [lglemza@mdinsurance.state.md.us](mailto:lglemza@mdinsurance.state.md.us).

For questions, please contact Mr. Linas Glemza, Actuary, at (410) 468-2044.

In addition, please refer to the Summary of Revision page for a listing of revisions to this request.

Please provide this information no later than **August 22, 2008**.

## Maryland Medical Malpractice Rate Guide Specifications

October 2008 edition

### SUMMARY OF REVISIONS TO SPECIFICATIONS

There are no revisions to the specifications and reporting requirements from the edition.

However, the following are updates from 2007 specifications, but are included again for emphasis:

- 1) The MIA supplied spreadsheet has been updated to include pre-filled territory codes. Therefore, each class now has three rows – one for each territory. If you have statewide rates for certain classes, fill these in for each territory.
- 2) Certain Profit/Non-Profit classes (MIA sort code 600) have been split into Profit and Non-Profit classes, and now will have their own entries.
- 3) The MIA supplied spreadsheet has been expanded to include the new/renewal request portion of this call. Certain columns have already been filled in. You may delete rows for those classes that are not written.
- 4) Use “n/a” instead of “N/A” where necessary.

The following were revisions to the specifications from 2006. We are including them here for your convenience:

- 1) We are providing the actual spreadsheet for the company to fill in. Some columns are already pre-filled. Do not change or add any formatting to that which is already provided;
- 2) New code – MIA Specialty Group code – this is an MIA provided number and is used to sort the data for output purposes. This number should not be altered;
- 3) MIA Determined Class code – the purpose of this code is to create uniformity between companies. This code is provided by the MIA and should not be altered;
- 4) The MIA provided spreadsheet lists all the classes that need to be provided. If your company does not write a particular class, enter n/a – do **NOT** delete the row. If your company feels that a certain specific class does not fall into any of the categories provided, please contact the MIA first. No other class codes are required.

## Excel File Format

All data must start in cell A3 of the spreadsheet. PLEASE use headers. Below lists the columns in which the data must be placed. The placement of data must conform to this or the submission will be returned. The data must be placed in the following columns:
